

Ämne: Update on the BSA 2020 Czech Rally
Datum: Tue, 19 May 2020 20:37:55 +0100

Hello BSA friends,

Here is an update on the latest situation with this year's BSA International rally.

At the moment, the rally is still going ahead.

The Czech club will look at the latest situation at the end of June, and then provide an update on the rally.

The Czech government has permitted events up to 300 persons, so the limit of participants will be no problem.

The borders with some "secure countries" are already open, for example with Slovakia, Poland or Austria.

The situation with corona is going up to now well, so we suppose, that the event will take place in planned term and with all participants.

At the end of June we give you a clear message about the event performance.

Each country around the Czech Republic will have their own set of rules.

The deadline for new bookings has been extended, but may not guarantee a place, dependant on numbers

Regards

Andy Lorenz

International Rally Secretary
BSA Owners Club, Britain
